CLAIMS HANDLING AND MANAGEMENT

Claims happen - when they do LawSelect provides solicitors to pre-emptively manage the claim and bring it to a successful resolution. Claims handling is provided by a specialist insurance law firm with a proven track record of minimising losses. Participating firms benefit from direct lawyer-to-lawyer contact throughout the process, ensuring the right outcome is reached in the quickest time possible. As solicitors in private practice, they understand the importance of your relationship with the claimant, who is also your client. Therefore, the claim handling process is carefully managed to protect important relationships.

It is crucial that every facet of your practice contributes to the quality of your services and to the bottom line.

If you have always considered PI insurance as a mandatory expense in order to do business, but not much more, we invite you to learn about LawSelect's programme for turning your PI insurance into an asset for the firm.

In simple terms, LawSelect is a Professional Indemnity programme which provides participating firms with premium stability through risk and claims management.

More specifically, LawSelect is a programme which combines insurance protection with risk and business management, consultancy services and expert solicitors for claims management and defence.
